

Written Confirmation of Intent to Re-Enroll

- A student is not considered to have withdrawn if he or she confirms in writing that he or she will attend another mini-session or module later within that term (must be within 45 days for nonterm or nonstandard term)
- Confirmation from the student must be obtained subsequent to withdrawal (may not rely upon the student's previous registration).
- If a student indicates an intention to continue in a subsequent module in the term but does not return for a subsequent module, the student would be considered to have withdrawn. The withdrawal date would be the withdrawal date that would have applied if the student had not indicated an intention to attend a module later in the term.
- If student doesn't provide written confirmation, but does reenroll, the student is eligible to receive any funds for which he or she was eligible prior to withdrawal, including funds that were returned by the institution or student provided the student's enrollment status continues to support the full amount of those funds.
 - This means that the school must "un-do" R2T4 calculation and treat the student as if he/she had not ceased attendance.
- If a student withdraws from a clock-hour or nonterm credit-hour program and reenters the same program within 180 calendar days, then the standard rules on reentry apply.
