State Board Policy (2016)

Washington State Community & Technical colleges shall provide appropriate, effective, and integrated access to technology for students, employees and external community members.

This policy applies to the procurement, development and implementation of instructional, administrative, or communications technologies and content. Further, the policy applies to both current and emerging technologies, including both hardware and software, in use in or being evaluated for purchase or adoption throughout the Community and Technical college system.
State OCIO Policy (2017)

• The State of Washington is committed to providing access to information technology to the public and Washington State employees, including individuals with disabilities. Information Technology . . . should provide . . substantially similar functionality to individuals with disabilities as it provides to others

• All covered technology must be accessible to and usable by individuals with disabilities . . . this includes all covered technology acquired, procured, developed or substantially modified or substantially enhanced after the effective date of the policy . . .
• Convened a system committee to support system policy implementation;
• Created an SBCTC position for Accessible Technology Initiatives;
• Invested $260K in instructional video captioning;
• Developed a web-based Caption Hub to facilitate captioning in our system;
• Purchased Ally, an online course accessibility checking software;
• Offers openly-licensed Accessibility 101 course to the system;
• Subsidizes and manages Access360 capacity building program.

DATA: STUDENTS WITH DISABILITIES

According to the National Center for Education Statistics (NCES) Fast Facts (2016):

In the 2011-2012 academic year:

- 11.1% of undergraduates reported having a disability

By age:

- 15-23 years: 9.0%
- 24-29 years: 11.3%
- 30+ years: 15.7%

Are you accommodating 11.1% of your undergraduate enrollment? Most institutions accommodate 3-5%.
